Sir, Captain Randberg, the Norwegian Shipper who is staying at the Astor House and Chief Officer Thorgesen who is staying at the house of Mrs. Dietrich No. 12 E. Szechuan Road were yesterday notified by A. Nielsen that their services in connection with the s.s. Shintien Maru will not be required after December 1st. They have been paid their salaries up to date.

Both the men have been waiting for the ship to be loaded when they would have proceeded on a voyage to a destination which had not up to the present been disclosed.

The Captain had a contract for six months and he is stated to have engaged a lawyer to sue Nielsen for breaking the agreement.

REPORT ON the Harbin Road Station seizure of arms case.

Made by D.S.I. Brewster

Forwarded by Det. Detective Insp.

Sir

Acting on your information and instructions, with D.S. Page I yesterday again made a search of the house of the principal Defendant in the above case Tong Tsz Dau 董赖才 who has now been released on security and still lives at No 804 Woohang Road. Masons were employed and they removed a part of the back wall of the house in order that a thorough search might be made but nothing of a suspicious nature was found.

The wall was rebuilt and the expenses incurred amounted to \$2.00.

Sir,

The "Shinten Maru", which is at present in the International Dock, is said to be ostensibly owned by Chinese, but is chartered by A. Nielsen.

The Captain's name is Randbey. He is a Dane who has been living in the Astor House for some time, his expenses being paid by Nielsen.

The Chief Officer is a Norwegian named Thørgensen who lives at the boarding house of Mrs Diedrichsen, No. 12 North Szechuen Road, and he gives information to the effect that if the Customs House people examine the cargo thoroughly, they will get a surprise.

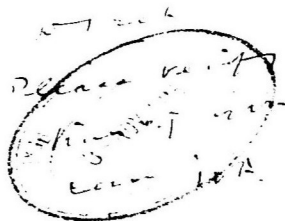

He has been engaged in Shanghai, has drawn his pay for two months, but has only been to the ship on one occasion when he went on board to have a look round.

She should have sailed about three weeks ago but has been held back, he thinks, on account of the recent seizure of arms by the Municipal Police.

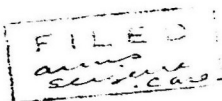

He does not know the ship's destination.

Sir,

Japanese interpreter Nakai reports that he has information to the effect that 14 barrels stored in the N.Y.K. No. 2 godown and declared to be filled with cement contain, 400 Browning and 800 mauser pistols with 100 rounds of ammunition for each.

There are more than 200 barrels of cement in No. 2 godown belonging to various owners and it is impossible to say which of the 14 contain the pistols.

REPORT ON further enquiries re Nielsen.

Made by D.S.I. Brewster

Forwarded by

Sir

I have now ascertained that Nielsen, the German implicate in the Harbin Road arms case, runs a small motor boat named the Nina, in which he makes frequent visits to Pootung and also up and down the River. One of these trips was made last Saturday evening when it was raining heavily and a pleasure trip out of the question. It is possible that he uses the boat to communicate with a depot for the storage of arms, the existence of which, somewhere outside the settlement, seems certain.

Sir,

It is reported that the s.s. Rio Pasig referred to on attached newspaper cutting is taking on board copper and leather the destination of which is Germany,

It is rather significant that the office of Everett the agent for the steamer is next to that occupied by Nielsen at 1A Jinkee Road and that Tong Ts Dong 董贊德 the man arrested at Harbin Road Station who was doing Nielsen's work in connection with the intended shipment of arms had in his possession a number of papers showing that he was making certain arrangements with Everett in connection with shipping.
